He also commended Public Works Director Mead for coordinating this year's paving project, which he felt was a great success.

Mayor Lane commented that the repairs and paving done on 5th Street look great and he has received a lot of positive feedback on the paving project from residents. He stated that he attended Alma's Festival in the Clouds and was pleased to see a lot of Fairplay residents at the event.

STAFF AND COMMITTEE REPORTS

Town Administrator/ Clerk Darrah provided a written staff report, wherein she updated the Board on the Police Chief Search, various Land Use Items, the Whispering Aspens Water System Engineering Analysis, Purchase of Fairplay Beach Water Rights, the Health Services District, the River Park Planning and the CML District 4 meeting on September 11th. She asked for direction regarding correspondence that the Town received from Bob White. She stated that the Town has not received a referral request from Park County on the Brannon property. The Board did not offer any clear direction regarding Mr. White's correspondence and referred to Ms. Darrah's judgment. Ms. Darrah stated that a few years ago she was asked by CML what the strangest public comment she had ever received. If she were asked that question today, she would site citizen complaints about street pavement/ improvements in Town.

Public Works Director Mead provided a written staff report, wherein he updated the Board on Wastewater Treatment Plant Performance, Water and Waste Water Systems, various Public Works projects and an update on Public Works Special Projects/ 2017 Work Plan. He also gave a verbal update on the SCADA system, which is providing very helpful information needed for annual reports. Invitations to bid the 8th Street Drainage Project went out but the Town did not receive any bids on the project. Mr. Mead asked the Board to hold a work session on August 7th to discuss street improvements. Lastly, he stated that one of the contractors installing fiber optic lines in Fairplay has left alleyways very rough and their bond has been increased to cover necessary repairs.

Acting Police Chief Schlunsen provided a written staff report, wherein he updated the Board on ongoing work with Lexipol in regards to a police procedure program, a breakdown on various case reports filed year to date, the Fairplay Grower property, an In-Service Continuing Education grant from POST that was recently awarded to the Police Department, and stated that all officers are up to date with state mandated training. Trustee Stapp asked for increased police presence on Main Street to slow down speeders.

Town Treasurer Wittbrodt stated that revenues are on track for this time of year, sales tax revenues are up 3% from last year, but the biggest sales tax months are coming up. Year to date expenditures are fine as well. She commented that large building permit and water and sewer plant investment fees are expected to be coming in soon and all of these line items are already over budget. Ms. Wittbrodt also updated the Board on the FEMA projects.

Town Planner Newman stated that the last application for an existing conex container in Town, belonging to Rick Carroll at the Middle Fork RV Resort, should be presented to the Board in mid September and this will likely include a review of their existing SUP.

TOWN OF FAIRPLAY TOWN PLANNER REPORT

2017-14

PROPOSAL TO AMEND THE UNIFIED DEVELOPMENT CODE TO ALLOW DOG TRAINING FACILITIES

SUMMARY

A Dog Training business, with no kennel or dog boarding, has been proposed in Town Center Zoning. The Fairplay Unified Development Code does not have a zoning category for "Dog Training Facility." Kennels are addressed as a special use in Commercial and Multi-Use zoning and as a permitted use in Light Industrial zoning, but a facility to train dogs with no kennel or boarding, but only training classes, is not addressed as a use.

Section 16-5-50 (Item E) of the Fairplay Unified Development Code states as follows:

Any use not specifically included in the district regulations as a "use permitted" or a "special use" shall be prohibited in that district. In certain districts, some types of "uses permitted" or "special uses" are general in nature, listing examples of the type of use which shall be permitted in the district. Where a use, or category of uses, which is not listed in a general category of uses is proposed, or where a question of interpretation occurs, the Board of Trustees, with the advice of the staff, may make a determination that such use, or type of use, is or is not appropriate within the district.

In these instances, the Board of Trustees may amend the UCD to allow a specific use in a specific zone district. The Board has the option to either designate it as a "use permitted", as a "special use" or to prohibit the use altogether.

COMPLIANCE WITH FAIRPLAY COMPREHENSIVE PLAN

The Fairplay Comprehensive Plan suggests that Town Center Zoning should include small businesses, hotels, restaurants, taverns, governmental buildings, professional offices, medical/dental clinics, museums, art galleries, and a compatible collection of uses. The Town Center is a thriving hub of civic activity and a place for social interaction.

The plan does not address animal training or similar uses.

STAFF ANALYSIS

The issue of interpreting zoning codes frequently comes up in codes that have recently been written or revised. It is common for land uses to be inadvertently left out of the zoning code and in many cases, new uses arise that haven't been previously considered. This is the case with "Dog Training Facility (or Business)." The person

who has proposed this business has requested that the issue be brought before the Board of Trustees.

A decision by the Board of Trustees in this situation, would be:

- 1. To allow the use as a "use permitted" in a particular zone district or districts
- 2. To allow the use as a "special use" in a particular zone district or districts
- 3. To prohibit the use in all zone districts

If the proposed use is allowed as a "use permitted" or as a "special use", consideration must be made as to whether the use would be appropriate at any location in the zone district(s). The decision should be made based on sound planning logic and not on the appropriateness of the proposed use at a specific location. If the Board of Trustees votes to approve this use, Staff encourages the board to designate "Dog Training Facility" as a special use in Town Center zoning and perhaps also in Commercial zoning. As a special use, conditions of approval can be placed on each application to protect the character of the neighborhoods.

RE:

8th Street Drainage Project

DATE:

September 14, 2017

In June I sent bid documents for the 8th Street Drainage Project to three local contractors with a deadline of July 12th. By the deadline I had not received any bids back from any contractors. I extended the bid deadline an additional two weeks and still received no bid documents back from contractors. On August 4th Frank Just, Chip Wittbrodt and I met at the intersection of Main Street and 8th Street to discuss a different course of action. It has been determined that Frank Just with Betone Civil Constructors can do this project for a total cost not to exceed \$8,000. While we generally do not contract work to town employees or elected officials, I feel it is necessary in this instance to contract Betone Civil Constructors due to lack of interest from other contractors and that this project should be completed this year.

Recommended motion:

Motion to approve a contract with Betone Civil Constructors to complete the 8th Street Drainage project for a cost not to exceed \$8,000. This will need a second and a roll call vote.
